

**Department of Environmental Protection & Sustainability  
Interoffice Memorandum**

TO: Mr. Michael R. Beichler, C.P.E.  
Bureau of Solid Waste Management  
Department of Public Works

FROM: Brady Locher /signed/  
Deputy Director, EPS

DATE: December 5, 2019

SUBJECT: Eastern Sanitary Landfill  
Stormwater Management Variance Renewal  
Bird River and Lower Gunpowder Watersheds  
**Project ID: A009564**  
**EPS Tracking 06-19-3117 (old number 06-15-1995)**

---

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. This section allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this article would result in unreasonable hardship or practical difficulty and not fulfill the intent of the article.

This project is an active landfill with all of the disturbed area being treated by erosion and sediment control facilities which will remain in place during all active work operations. The disturbed area will also be vegetatively stabilized as it is brought to grade.

Should there be any questions, please contact Kevin L. Quelet, P.E. at 410-887-3768.
